LANDSCAPING

Design · Install · Maintenance

Serving Knoxville, Oak Ridge, Kingston & Hardin Valley —
East Tennessee

MAXCARELANDSCAPING.COM

I Design

*Where every project begins — a plan shaped around
how you actually want to live outdoors.*

OUTDOOR LIVING EAST TENNESSEE

Backyard Retreat

A pea-gravel lounge and paver-bordered fire pit carved into the tree line, with a separate dining terrace and a freshly planted slope. Designed as one connected outdoor room for gathering year-round.

FIRE FEATURE EAST TENNESSEE

Fireside Gathering Space

A hand-laid stacked-stone fire pit anchored by reclaimed-timber benches on stone pads. New sod and a replanted privacy hillside turn an open lawn into an evening destination.

STONework & BEDS

EAST TENNESSEE

Tiered Stone Gardens

Dry-stacked natural stone steps down the grade around a mature dogwood, finished with rich black mulch and river-rock borders — structure and softness working together.

CURB APPEAL EAST TENNESSEE

Estate Front Beds & Dry Creek

Layered river-rock beds and a dry-stacked stone border dress the front of an estate home while quietly moving stormwater away from the foundation. Purple accent plantings carry the color.

II

Install

*Walls, walkways, drainage, and stone — built on
proper base work to last for years.*

RETAINING WALL EAST TENNESSEE

Natural Stone Terrace

A hand-set fieldstone retaining wall reclaims a sloped bed beside the drive, paired with a river-rock swale and fresh mulch. Built to hold the grade and handle runoff for the long haul.

RETAINING WALL EAST TENNESSEE

Segmental Retaining Wall

An engineered segmental-block wall levels a usable yard beneath a covered outdoor kitchen. Proper base prep and drainage behind the wall keep it true season after season.

RETAINING WALL EAST TENNESSEE

Curved Terrace Wall

A sweeping block wall terraces the grade and frames the lawn around a covered porch, glowing at golden hour. Gentle curves make a big wall feel like part of the landscape.

RETAINING WALL EAST TENNESSEE

Woodland Retaining Wall

A curved segmental wall carves a level terrace into a wooded slope, blended into pine-straw beds — erosion control that disappears into the tree line.

HARDSCAPE

EAST TENNESSEE

Cobblestone Walkway

A gently curving tumbled-paver path, set on a compacted and edged base, connects the yard with an old-world look. A walkway built to stay level and weed-free.

DRAINAGE

EAST TENNESSEE

Dry Creek Drainage Run

A river-rock dry creek channels roof and yard runoff safely away from the home, lined with emerald green arborvitae for privacy. Function that looks intentional.

EROSION CONTROL EAST TENNESSEE

Slope Erosion Control

Large river rock armors a steep grade to stop washout and stabilize the hillside behind the home. A durable fix for the problem slopes on our hill-country lots.

III

Maintenance

*The ongoing care that keeps a landscape looking the-
day-it-was-finished good.*

LAWN & BEDS

EAST TENNESSEE

Fresh Foundation & Lawn

A clean foundation planting of emerald arborvitae, crisp bed edging, and revived turf reset this home's curb appeal. Regular care keeps the lines sharp and the lawn thick.

LAWN & COLOR EAST TENNESSEE

Signature Mailbox Garden

A Japanese maple, accent boulders, and seasonal color anchor a tidy mailbox bed, set off by a striped, healthy lawn. Ongoing bed and turf care keep it magazine-ready.

MULCH SERVICE

EAST TENNESSEE

Premium Mulch, Delivered

Fresh hardwood mulch delivered by the trailer-load and spread by hand for clean, dark beds. Our seasonal refresh protects roots, holds moisture, and sharpens every bed line.

COMMUNITY

HARDIN VALLEY • KNOX COUNTY

Welcome to Hardin Valley

Max Care was proud to sponsor the Hardin Valley welcome-sign makeover — fresh mulch beds, a river-rock feature, and new shrubs for the whole community to enjoy. Rooted in the towns we serve.

LET'S BUILD YOURS

Design your outdoor space

From a single mulch refresh to a full backyard transformation, Max Care handles design, install, and maintenance across East Tennessee.
